

Education

MPSTME, NMIMS University	2023 - 2027
B. Tech in Computer Engineering CGPA: 3.14	
Deogiri Institute of Engineering, Sambhaji Nagar	2020 - 2022
HSC: 3.24	
S.B.O.A Public School, Sambhaji Nagar	2020
State Board: 3.58	

Projects

AI-Based Indian Sign Language (ISL) Recognition

Engineered a **real-time gesture recognition system** using **CNN models**, **TensorFlow**, and **OpenCV** to bridge communication gaps by translating hand gestures into accessible text.

Smart-Traffic Management System

Developed an **automated traffic control** solution leveraging **YOLO** and **OpenCV** to **analyze real-time vehicle** density and dynamically optimize signal timings via **IoT-driven logic**.

Ayurveda Remedies Mobile Application

Architected a native **Android application** using **Java** and **XML** that delivers symptom-based Ayurvedic healthcare solutions through an intuitive and user-friendly interface.

Certifications & Publications

MERN Stack Bootcamp – DevTown: Completed a 5-day hands-on bootcamp on MERN.

App Development Chatbot Bootcamp – NMIMS University 2023: Completed intensive training on chatbot architecture and development logic.

Ethical Hacking Workshop – IIT Bombay: Completed a 2-day workshop on ethical hacking, cybersecurity threats, and offensive security techniques.

CORE SKILLS

Languages: Java, Python, SQL, JavaScript, HTML, C++, CSS, Solidity.

Frameworks & Technologies: OpenCV, TensorFlow, MediaPipe, Pygame, React, Node.js, Ethers.js, OpenWeatherMap API, Leaflet.js.

Development & Tools: Android Studio, Blockchain (Ethereum/Solidity), Firebase, GitHub, MySQL, MetaMask, SAS ODA, Tableau, Web & Android App Development.

AI & Concepts: Cybersecurity, Computer Vision, Data Structures & Algorithms, Deep Learning, DBMS, Machine Learning, OOP, OS

Professional Skills: Adaptability, Analytical Thinking, Leadership, Problem-Solving, Team Management

Achievements and Positions of Responsibility

- **Finalist, Orion Hackathon 2026**, organized by Google Developer Student Clubs; developed a **Digital Health Record System** focusing on secure healthcare data management.
- **Ex-Event Management OC** - Avinya, MPSTME NMIMS
- **GDG Solution Challenge Participation | Google Developer Groups | 2025** – Recognized for developing tech-driven solutions to address societal impact challenges within the global community.
- **Finalist, YUGANTAR 2025** – Internal Hackathon at SVKM's NMIMS (SIH 2025 qualifier), developed a **Block-Chain based Smart Tourist-Safety System**.
- **Finalist, Arohan National-Level Competition 2025**, IIT Bombay, for innovative technical problem-solving and solution.
- **Finalist, CodeCraze Hackathon at RCPIT**, showcased innovative solutions integrating Blockchain technologies.
- **1st Prize, "Build the Bridge" Competition, AMBIORA'25 Techfest**, SVKM's NMIMS, MPSTME, Shirpur.
- **Participant, Bharatiya Antariksh Hackathon 2025**; proposed **ALGIS (Adaptive Lunar Geo-Intelligence System)** an AI-based framework using **Chandrayaan-1 & 2 datasets** for lunar landslide and terrain analysis.
- **Participant**, qualified up to **Round 2, Adobe India Hackathon**.
